## EDUCATION

### Algoma University

Brampton, Canada

B.S. Computer Science

Aug 2025

- **Concentrations:** Full Stack Development, Web Development, Database Programming, Computer Networks
- **Honors and Awards:** Student Success Scholarship, Algoma University High Achievement Award
- **Related Coursework:** Data Structures & Algorithms, Objects & Design, Computer Organization & Programming, Computer Networks, Artificial Intelligence, Object-Oriented Programming, Software Engineering, Sys Analysis

## EXPERIENCE

### Zapply

Remote, United States

Junior Software Developer

May 2025 – Present

- Developed a full stack prototype for a job application automation service.
- Collaborated on making chrome extensions to help autofill job applications across hundreds of websites.
- Used web scraping to find job postings across different job boards.
- Managed the data storage architecture, ensuring that data was saved and fetched from the database server.

## PROJECTS

### Job Application Tracker

Solo Project

- Built a full-stack MERN application to help users track and manage job applications with seamless CRUD functionality.
- Designed a modular architecture with reusable components and services to support scalability and maintainability.

### Alcoms.ca

Team Member

- Co-developed a responsive website for a university club to showcase events, member profiles, and events.
- Boosted engagement by ~25% through performance optimization and a clean, modern UI design.

### Hotel Management System

Team Lead

- Spearheaded a team to build a full-stack hotel management platform with user authentication and role-based access.
- Implemented CRUD and dynamic customer, booking, and account modules using scalable, modular code structures.

### Task Manager

Solo Project

- Built a lightweight responsive task management app using vanilla HTML, CSS, and JavaScript.
- Used local Storage for persistent task saving and dynamic DOM manipulation for real-time UI updates.

## ACTIVITIES AND LEADERSHIP

### ALCOMS (Algoma University Computer Society)

Lead Developer, Lead Administrator, Event Coordinator, Graphic Designer

### AUSU (Algoma University Student Union)

Faculty of Computer Science Representative

### AUSU (Algoma University Student Union)

Student Orientation Leader

## SKILLS

**Programming:** Java, Python, C++, JavaScript, Html/CSS, PHP, MySQL, Node.js, React, Express.js, Assembly Language

**Tools:** IntelliJ, VS Code, Eclipse, Jupyter Notebooks, Git, MongoDB, Postman, Oracle VirtualBox, Visual Paradigm, Jira

**Soft Skills:** Microsoft Office, Teamwork, Leadership, Critical Thinking, Multitasking, Adaptability, Problem Solving
